Allies Demand Trial of Papal Statesman

THE POWERS OF THE entente cordiale have demanded that Poland arrest her Roman Catholic minister of finance, Leon von Bilinski, and surrender him to them for trial as one of the chief agents in causing the world war. This demand is understood to have grown out of disclosures contained in the Austrian Red Book recently published.

While the law indulges every accused person in the presumption that he is innocent till his guilt is judicially established, the past record of Bilinski as a conspicuous tool of the Hapsburgs in the subjugation and Romanizing of Jugo-Slav peoples appears significant in view of the international indictment now lodged against him.

Though himself a Pole, he was appointed by Franz Joseph of Austria Hungary as a sort of viceroy in charge of the little Serbian states of Bosnia and Herzegovina after their subjugation by that empire. His conspicuous success in placing the heavy imperial and papal fetters on the helpless little submerged peoples was such that the Vienna government rewarded him with the portfolio of finance in the imperial cabinet.

While forced to bow its neck to the heaviest and most cruel alien yoke of modern times, Bosnia did not wear that yoke with equanimity. Though powerless to resist the iron heel that was crushing them, the Serbian people in the subjugated countries and in Serbia proper illy concealed the deep and righteous resentment that rankled in their hearts.

This resentment was greatly intensified when it became known that a secret concordat executed in the vatican June 24, 1914, had fastened intolerable papal burdens on Serbia. When the Austrian Archduke Francis Ferdinand, heir to the Austrian throne and ringleader of the policy of aggression against the Jugo-Slavs, came to the capital of Bosnia with his wife four days after the concordat was executed, a Serbian student shot them both to death and so brought on the terrible war. For his faithful service so rendered to the vatican and Vienna in blotting out liberty, Bilinski was later rewarded with the portfolio he now holds in the Roman Catholic government of Poland.

Patriotic Binghamton, New York

IN THE MUNICIPAL election held November 5 in Binghamton, New York, the clerical ticket which Rome had placed before the people went down and out by majorities of two to one before the patriotic voters. In the contest for city treasurer, popery showed its hand more clearly and openly than for any other office.

Early in the campaign, George M. Scott, a Spanish War veteran and Protestant and Mason, announced his candidacy for nomination for that office by the Republican party. Some time later, Patrick J. Crowe, who had gone overseas as a Knight of Columbus secretary at \$100 or so per month and had lost a leg, returned and entered the race against Scott for the Republican nomination.

Heavily defeated by Scott in the Republican primary, Crowe then accepted the Democratic nomination for the same office in the belief that his papal supporters could put him over in the general election. High-minded men who play the political game with high honor, would spurn the nomination of the opposite party after being fairly beaten in the primary of their own party.

But no such scruples trouble the political conscience of most Knights of Columbus. Any way, Crowe exchanged his Republican hat for a Democratic one, which he tossed defiantly into the ring for the November election. According to press reports, the vote stood as follows: Scott 10,410; Crowe 5,937.

The papal ticket fared but little better for other city offices. Some of the results as reported in the press follow, the defeated candidate in each instance being understood to be a Roman Catholic and in most instances a Knight of Columbus:

For Mayor: Wilson 10,446; Seymour 6,183.
For President of Council: Boyd 10,763; Casey 5,206.
For Assessor: Lusk 9,675; Rugg 8,969; Smith 6,614; Meagher 5,375. (Meagher is said to be Roman Catholic.)
For Constable: Palmer 10,304; Kruty 4,625.

Who Publishes "Current Events"?

A SMALL WEEKLY newspaper called *Current Events* has in recent years found its way into the class rooms and libraries of public schools in every nook and corner of the United States. School authorities in many cities and towns seem to have adopted it officially or at least quasi-officially for school use. Under the sanction of such adoption, its influence with young pupils is simply irresistible. In most instances boards of education, superintendents and teachers have doubtless acted in perfect good faith in its adoption, but grave charges against the little periodical are reaching this paper.

Intelligent, discriminating citizens, some of whom are in high official stations, allege that *Current Events* is masterfully freighted in almost every column with the most sinister and clever and dishonest kind of political propaganda. These complaints say the paper in question is deliberately poisoning the minds of our millions of young children in favor of popery and most of the political fads and heresies for which popery is responsible.

THE MENACE has not sufficient acquaintance with *Current Events* to say whether such charges are true or false. But, if true, they constitute one of the most dangerous and diabolical moves yet executed by the enemies of this republic and of its democratic institutions. By the grace of unsuspecting school authorities the little periodical must have acquired an enormous circulation. It reaches the young children whose tender years and inexperience render them peculiarly helpless in the presence of poison propaganda. Approval of the paper by teachers and superintendents adds very greatly to its power over the children.

In these stirring times, it is virtually impossible for editorial writers, even when actuated by honest intentions, to avoid reflecting their personal bias on the great current political issues; and a paper like *Current Events* in the hand of brutal propagandists would be capable of incalculable wreckage. Patriotic citizens should look out for this little paper and find out who is back of it and what it is doing. THE MENACE would like to know who are the editors of *Current Events*.

Anti-Papal Books, Cheap

Anti-papal books are the educators in this movement. THE MENACE is too limited in size to give to the uninformed the vast information they need. We offer a combination herewith that covers several phases of the anti-papal movement, a combination that will save you money and help you enlighten your indifferent friends.

Scotching the Serpent—A live wire political story showing how Rome works. Paper cover. 25
Crimes of the Popes—By Billy Parker, really exposes Rome's long line of impostors. Paper cover. 25
My Life in a Convent—By Ralph O'Grady, probably the most convincing account of the life of a nun. Paper cover. 50
The Vatican, The Kaiser and The World War—A compilation of facts showing Vatican pro-Germanism. Paper cover. 25

The above books sell singly for \$1.50 and are well worth the money. But we make a saving where several go out in one bundle and we offer them to you at one third off. Send One Dollar asking for the TIMELY COMBINATION and they will be sent to your door, postage prepaid. THE MENACE.

The theory that women must be imprisoned to attain religious perfection is a monstrous lie. If it were true, religion would be fit for slaves only.

By what moral right and by warrant of what law do municipal judges sentence juvenile offenders to Roman Catholic workshops and papal prisons?

The priests do not tell their parishioners how to vote. It is not necessary. They tell them who "deserves well of the church" and the results follow.

Twenty thousand fat priests at large in the United States and sixty thousand lean nuns working for them is one of popery's contributions to civic righteousness.

Jesuitism is the dominant note in the papal system. Study the life of its founder and the history of the Jesuits, and you have an explanation of the papist spirit.

ORGANIZATION NEWS

Address all letters about organization to Box 76, Aurora, Mo.

Things have never looked better in the organization field than now. Lodges everywhere are showing unmistakable signs of life and determination to deliver a knock out blow in 1920 by doing everything legitimate to insure victory.

No campaign year was ever heralded so far in advance by the patriotic forces, and the really hopeful sign is that every man who belongs to the I. O. B., and every woman who belongs to the W. O. B., seems to realize the importance of having more lodges organized in nearby towns and gaining members for the state and universal lodges where it is impractical to form local lodges.

In fact, the forces are just awakening to the significance of having members of our organization in every town and hamlet. Lodges in many places, are choosing committees to conduct membership campaigns in all towns within reach. This really is the most successful way to organize that ever has been tested. In every lodge there are some good and convincing talkers who are acquainted with our sympathizers in towns that can be reached by them without interfering with their daily work, and where the expenses for such men have been paid by the lodge appointing them as a committee to do the work, the plan has worked well. Nothing will help a lodge more than to have the communities around it sufficiently well organized to prove helpful in county campaigns.

Now is the time to build up your county organizations. Don't be content with a lodge in your town, have a member of the I. O. B. and W. O. B. in every town in the county, and let that member act as secretary for whatever number of members he and you can secure in his community until you have enough members there to institute a full-fledged lodge.

The National Lodge is seeking organizers who can devote full time to the work and proposes to send these organizers to every town in the territory assigned. Lodges already in the field can make it possible to use these organizers in virgin fields if they will cultivate the field around them, and knowing how important it is to have every available man working we expect a hearty response to this suggestion.

Alabama shows the fruits of systematically working along these lines. A few months ago the first I. O. B. lodge was instituted in

Birmingham. The members immediately selected one of their number to tour the state, guaranteed his expenses and asked us to help out with the work. We cheerfully did so and the result is that enough members were secured in about three months, and enough lodges were organized, to warrant the institution of the Grand Lodge. State convention was called Nov. 2nd, and the Grand Lodge formed, and now they are going after the outlying towns harder than ever. What does all this mean to the work? Simply this.

Take the Lyeum Course for illustration. Wherever you find a lodge of the I. O. B. there you find it an easy matter to arrange for the Lyeum Course. The Lyeum course awakens the slumbering citizens of the community and the lodge grows stronger and better. Trail the I. O. B. and W. O. B. and the Lyeum, watch the places where these things are in 1920—the results will speak for themselves. Knowing this to be the case it is every patriot's duty to aid in organization work—it is the duty of every lodge to help create more lodges and get more members in its vicinity. Let every member of our organizations seize this opportunity, 1920 will never pass this way but once!

California on the Job

Lodges throughout the state are watching the school election and figuring on the possible candidates for State Superintendent of Schools. From one section comes the report that a man who is at present a county superintendent of schools will seek the state office.

This gentleman was placed in his present position by the patriotic forces in his county but he has absolutely failed to keep his promise to employ none but bonafide friends of the public schools and the organizations in his county are going to make him hard to catch. This man has been allowing public funds to be paid to parochial institutions. If he makes the race for state superintendent these facts will be used against him. His candidacy, seemingly, is not a certainty and his possible opponent is not yet named, but let everyone keep an eye on candidates for public school positions. No papists or near-papists can be supported by real friends of the public schools. Papal opposition to the Smith-Towner educational bill is only a line. A few months ago the first I. O. B. lodge was instituted in

terests can be served by public school enemies.

All patriots in Oregon wishing the services of an organizer for the I. O. B., and all persons in Portland wishing to join the I. O. B., should write Box 2054 Station A, Portland, Oregon.

Dr. W. A. Crawford, Fogg Bldg., Pasadena, California, Grand Secretary of the I. O. B., and Col. J. Arthur Peterson, 1610 Pacific Avenue, San Francisco, Deputy Grand Master—any persons interested in organization or desiring lectures in their town should communicate with them at once.

A member in one of Alabama's good towns says, "We now have nearly four hundred new members and are taking in from 10 to 25 every meeting night."

LYCEUM TO THE FORE

Primarily as a result of our splendid I. O. B. and W. O. B. organizations which gave to us a foundation on which to start Lyeum work at once the prospects are that it will be necessary to operate two or three more Lyeum Courses beginning January first than we had expected to need by March first. Elsewhere we tell you how it is moving along, showing you that we are actually started, not only on the raising of the million dollar fund, but that we are getting well started with the Million Dollars worth of Propaganda we have promised to deliver on receipt of pledges covering the expenditure. Now the Lyeum really offers a financial opportunity to lodges, be they Masonic, Pythian, I. O. O. F. or some other, be they Orangemen, Guardians of Liberty, F. O. S. of A. Junior Order, Malpas, I. O. B., or any other.

We offer the service for less money than it could possibly be procured through any other medium than Our Protestant Lyeum Bureau.

We offer it on terms, with a well defined plan of execution that will prove to any who hear the proposition that no town can afford to miss it. Every organization before which our advance men have appeared has contracted for the Lyeum service.

This is a hundred per cent record such as no bureau has ever made before. It speaks for itself and it is a tip to our friends everywhere that all they need to do is start the ball rolling so we can get in touch with the proper parties. Just as soon as possible every state will be covered by our advance men. Don't let your town be missed. Write us for information and talk it over with your friends, if advisable we will book our advance man for a date with you and the LYCEUM WILL BE YOURS. IT IS AN AID TO EVERY PATRIOTIC ORGANIZATION. Write about it now! Box 318, Aurora, Mo.
